Entry-Level Civil Engineer

Build Your Career with C&K Engineering

C&K Engineering is seeking a motivated Entry-Level Civil Engineer to join our team. This is an excellent opportunity for a recent graduate or early-career engineer to build a strong foundation in civil engineering and land development while contributing to real projects from initial planning through design, permitting, and construction. Position is based in our Shelton, CT office; housing and relocation assistance are not available.

What You'll Do

- Assist with the planning and design of residential, commercial, and land development projects.
- Prepare and revise engineering plans, drawings, calculations, specifications, reports, and technical documentation.
- Use AutoCAD, Civil 3D, HydroCAD, and other engineering software to support project design and analysis.
- Assist with site planning, grading, drainage, stormwater management, septic systems, utilities, and other site/civil design work.
- Conduct or assist with site investigations, feasibility studies, field observations, and data collection.
- Support zoning and land-use research and help prepare permit applications and supporting documents.
- Coordinate with municipal and regulatory agencies as projects move through the permitting and approval process.
- Develop familiarity with Connecticut and local engineering standards, zoning requirements, environmental regulations, and permitting procedures.
- Collaborate with engineers, project managers, surveyors, architects, landscape architects, contractors, and other design professionals.
- Support projects through design, permitting, bidding, and construction.

Requirements

- Bachelor's degree in Civil Engineering or a related engineering discipline.
- Recent graduates and candidates with limited professional experience are encouraged to apply.
- EIT certification or ability to obtain EIT certification preferred.
- Interest in pursuing PE licensure preferred.
- Strong analytical, organizational, problem-solving, and communication skills.
- Strong attention to detail and ability to manage multiple assignments.
- Ability to work independently and collaboratively as part of a team.
- Working knowledge of AutoCAD Civil 3D; familiarity with HydroCAD, and microstation is a plus.
- Proficiency with Microsoft Office applications.
- Internship or related experience in civil engineering, land development, surveying, or construction is preferred, but not required.

Grow With C&K Engineering

You'll have the opportunity to contribute to meaningful projects, learn directly from experienced professionals, and develop practical knowledge of site development, design, permitting, and construction. We're looking for someone who is eager to learn, takes pride in their work, and wants to grow professionally as part of our team.

C&K Engineering is an Equal Opportunity Employer. We are committed to providing equal employment opportunities to all qualified applicants and employees without regard to race, color, religion, sex, national origin, age, disability, veteran status, or any other characteristic protected by applicable law.

Ready to apply what you've learned in the classroom and begin building your professional experience? Apply now to join C&K Engineering.
